PROFILE

Alexandre Marcé

Eight years behind the camera, from a fashion studio to institutional reportage. I cover events discreetly, take care over the light in every portrait and deliver images ready to publish, in both stills and video.

What I bring

Events and protocol

Ceremonies, visits by senior officials, large live events: I know how to stay discreet without missing the moment.

Portrait and light

Studio and flash since my time in a fashion studio, natural light outdoors: clean, elegant portraits that look like the person.

Stills and video

Filming, editing and motion design: one person for both stills and moving images.

From shoot to publication

Selection, retouching and versions for web, social media and print, up to large format.
